10th March 2020

Dear Parents,

Please find attached the latest guidance, which the County has asked us to share with you regarding the Novel Coronavirus (COVID-19).

As a school we are regularly checking updated guidance and today have completed a whole school presentation highlighting the importance of washing hands properly and other ways to stop germs spreading.

To help with this, as stated on the newsletter, please can you ensure that your child brings to school their own water bottle to use during the day. Lunch-time cups will still be given in the canteen as they are used once in and then sterilised. Cups will not be available by the water fountains during the day but the children's' own water bottles can be refilled using the fountains.

With government advice changing almost daily it is vital that you keep up to date with the situation if you are planning a trip abroad or indeed to another part of the UK over the Easter break.

It would greatly assist us in helping to keep you appraised of the situation if you let us know of your travel plans for the holidays. If government advice does change whilst you are away we will then be in a much better position to advise you on any quarantine or isolation requirements when you return.

You will find links on the guidance to further advice.

Yours sincerely,

Mrs K. Macey
Headteacher
